

PUBLIC NOTICE

Siegel Robert Automotive Ripley, has applied to the Tennessee Air Pollution Control Division (TAPCD) for the renewals of their major source operating permits subject to the provisions of paragraph 1200-3-9-.02(11) of the Tennessee Air Pollution Control Regulations (also frequently referred to as Title V regulations). A major source (Title V) operating permit is required by both the Federal Clean Air Act and the Tennessee Air Pollution Control Regulations.

EPA has agreed to treat this draft Part 70 permit modification as a proposed Part 70 permit modification and to perform its 45-day review provided by the law concurrently with the public notice period. If any substantive comments are received, EPA's 45-day review period will cease to be performed concurrently with the public notice period. EPA's 45-day review period will start once the public notice period has been completed and EPA receives notification from the Tennessee Air Pollution Control Division that comments have been received and resolved. Whether EPA's 45-day review period is performed concurrently with the public comment period or after the public comment period has ended, the deadline for citizen's petitions to the EPA Administrator will be determined as if EPA's 45-day review period is performed after the public comment period has ended (*i.e.*, sequentially)

The status regarding EPA's 45-day review of this project and the deadline for submitting a citizen petition can be found at the following website address:

<http://www.epa.gov/region4/air/permits/Tennessee.htm>.

The **first applicant** is [Siegel Robert Automotive Ripley South](#) with a site address of 164 Viar Road, Ripley, TN. They seek to obtain a renewal of their major source operating permit for the coating and plating of plastic automotive parts. The facility consists of a body color plastic parts surface coating operation with water wash for control, a resist paint plastic parts surface coating operation with water wash for control, a finish paint plastic parts surface coating operation with water wash for control, decorative chrome plating on plastic with packed bed scrubber for control, and cleaning of chrome plating racks with nitric acid with wet scrubber for control. It should be noted that this facility has an existing Title V permit.

The **second applicant** is [Siegel Robert Automotive Ripley North](#) with a site address of 2483 Highway 209 North, Ripley, TN. They seek to obtain a renewal of their major source operating permit for the cleaning, coating and plating of plastic automotive parts. The facility consists of a surface coating operation used for coating plastic automotive and appliance parts with exhaust filter or water wash for control, an electroless copper, nickel, and chrome plating of plastic automotive and appliance parts with wet scrubber and composite mesh pad for control, and stationary abrasive cleaning operation is used for the clean-up of plating racks and is made-up of abrasive blasting equipment with fabric filter for control. It should be noted that this facility has an existing Title V permit.

A copy of the application materials used by the TAPCD and a copy of the draft / proposed permits are available for public inspection during normal business hours at the following locations:

Lauderdale County Library
120 Lafayette Street
Ripley, TN 38063-1321

and

Tennessee Department of Environment and Conservation
Division of Air Pollution Control
9th Floor, L & C Annex
401 Church Street
Nashville, TN 37243-1531

Also, if you require a copy of the draft permits they are available electronically by accessing the TDEC internet site located at:

<http://www.tdec.net/apc/ppo/>

Interested parties are invited to review these materials and comment. In addition, a public hearing may be requested at which written or oral presentations may be made. To be considered, written comments or requests for a public hearing must be made within thirty (30) days of the date of this notice and should be addressed to **Mr. Barry R Stephens, P.E., Director, Air Pollution Control Division, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531.** Questions concerning the source(s) may be addressed to Mr. Vergil Murrell at the same address or by calling 1-(615)-532-0554 or (615) 532-0607. A final determination will be made after weighing all relevant comments.

Individuals with disabilities who wish to review information maintained at the above-mentioned depositories should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such review. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-(866) 253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

For the *Lauderdale County Enterprise* -- publish once during the time period of August 17, 2007 through August 31, 2007.

Air Pollution Control

DATE: AUGUST 16, 2007

Assigned to – Vergil Murrell
